AUTHOR INDEX

Beninate, J. V.
Influence of Several Variables on the THPOH-NH_3 Fire Retardant Finish for Cotton, p. 121

Calamari, Jr., T. A.
Influence of Several Variables on the THPOH-NH_3 Fire Retardant Finish for Cotton, p. 121

Chin, P. S.
Mechanistic Evaluation of Flame Retardants, p. 195

Cooper, A. B.
Effect of Laundry Detergents on Flame Retardant Cotton Fabrics, p. 151

Daigle, D. J.
An Examination of Reactions Occurring During Finishing with Hydroxymethylphosphines, p. 161

DeGroot, W. F.
Mechanistic Evaluation of Flame Retardants, p. 195

Donaldson, D. J.
A Durable Commercially Feasible Flame Retardant for Textiles, p. 21

Donaldson, D. J.
A Durable Fire Retardant for Cotton-Polyester Blends, p. 102

Drake, Jr., G. L.
A Durable Commercially Feasible Flame Retardant for Textiles, p. 21

Drake, Jr., G. L.
A Durable Fire Retardant for Cotton-Polyester Blends, p. 102

Drake, Jr., G. L.
Dyes and Flame-Retardant Cotton Textiles, p. 83

Gonzales, E. J.
A Durable Flame Retardant for Cotton Cellulose Based on Diethyl Phosphoramidate (DEPA) and RHPOH, p. 171

Harper, Jr., R. J.
Influence of Several Variables on the THPOH-NH_3 Fire Retardant Finish for Cotton, p. 121

Kay, E. L.
Smoke Inhibition of Polymers, p. 132

Knoepfler, N. B.
Permanence of Boron Containing Treatments for Cotton Batting Products that Meet the Mattress Flammability Standard FF 4-72, p. 65

Larsen, E. R.
Mechanism of Flame Inhibition II: A New Principle of Flame Suppression, p. 5

Larsen, E. R.
Resin Blending: The Key to Superior Properties of Fire Retardant Resins, p. 242

Larsen, E. R.
Some Effects of Various Unsaturated Polyester Resin Components Upon FR-Agent Efficiency, p. 209

Lawson, D. F.
Smoke Inhibition of Polymers, p. 132

Madacsi, J. P.
Permanence of Boron Containing Treatments for Cotton Batting Products that Meet the Mattress Flammability Standard FF 4-72, p. 65

Markezich, A. R.
Effect of Laundry Detergents on Flame Retardant Cotton Fabrics, p. 151

McSherry, W. F.
Effect of Laundry Detergents on Flame Retardant Cotton Fabrics, p. 151

Mehta, R. D.
Flammability Characteristics of Metal Cation Exchanged Carboxyethylated Cottons: Oxygen Index Values and Thermogravimetric Analysis, p. 94

Miller, D. P.
Resin Blending: The Key to Superior Properties of Fire Retardant Resins, p. 242

Neumeyer, J. P.
Permanence of Boron Containing Treatments for Cotton Batting Products that Meet the Mattress Flammability Standard FF 4-72, p. 65

Normand, F. L.
A Durable Commercially Feasible Flame Retardant for Textiles, p. 21

Normand, F. L.
A Durable Fire Retardant for Cotton-Polyester Blends, p. 102

Orlando, C. M.
A New Aromatic Brominated Flame Retardant and its Application in High Impact Polystyrene, p. 183

O'Rourke, J. F.
The Use of Intumescent Coatings for Fire Protection of Structural Steel, p. 48

Pepperman, Jr., A. B.
A Durable Flame Retardant for Cotton Cellulose Based on Diethyl Phosphoramidate (DEPA) and THPOH, p. 171

Pepperman, Jr., A. B.
An Examination of Reactions Occurring During Finishing with Hydroxymethylphosphines, p. 161

Pepperman, Jr., A. B.
Hydrolysis Characteristics of Some Thpc-Based Flame Retardant Finishes on Cotton, p. 110

Reeves, W. A.
A Durable Commercially Feasible Flame Retardant for Textiles, p. 21

Reeves, W. A.
A Durable Fire Retardant for Cotton-Polyester Blends, p. 102

Reeves, W. A.
An Examination of Reactions Occurring During Finishing with Hydroxymethylphosphines, p. 161

Reeves, W. A.
Effect of Laundry Detergents on Flame Retardant Cotton Fabrics, p. 151

Schreiber, S. P.
Influence of Several Variables on the THPOH-NH_3 Fire Retardant Finish for Cotton, p. 121

Segal, L.
Dyes and Flame-Retardant Cotton Textiles, p. 83

Shafizadeh, F.
Mechanistic Evaluation of Flame Retardants, p. 195

Sobolev, I.
Effect of Particle Size on the Performance of Alumina Hydrate in Glass-Reinforced Polyesters, p. 224

Stepniczka, H. E.
Flame Retardant Polyester Fibers, p. 30

Timpa, J. D.
Dyes and Flame-Retardant Cotton Textiles, p. 83

Thomas, D. P.
A New Aromatic Brominated Flame Retardant and its Application in High Impact Polystyrene, p. 183

Trask, B. J.
Influence of Several Variables on the THPOH–NH_3 Fire Retardant Finish for Cotton, p. 121

Vail, S. L.
A Durable Flame Retardant for Cotton Cellulose Based on Diethyl Phosphoramidate (DEPA) and THPOH, p. 171

Vail, S. L.
An Examination of Reactions Occurring During Finishing with Hydroxymethylphosphines, p. 161

Vail, S. L.
Hydrolysis Characteristics of Some Thpc-Based Flame Retardant Finishes on Cotton, p. 110

Van Rensburg, N. J. J.
Observations on Some Flame-Retardant Treatments of Cotton-Polyester Blended Fabrics, p. 253

Woycheshin, E. A.
Effect of Particle Size on the Performance of Alumina Hydrate in Glass-Reinforced Polyesters, p. 224

SUBJECT INDEX

Acid Catalyst
A Durable Flame Retardant for Cotton Cellulose Based on Diethyl Phosphoramidate (DEPA) and THPOH, p. 171

Alumina Hydrate
Effect of Particle Size on the Performance of Alumina Hydrate in Glass-Reinforced Polyesters, p. 224

Antimony Oxide
Observations on Some Flame-Retardant Treatments of Cotton-Polyester Blended Fabrics, p. 253

Blended Fabrics
Observations on Some Flame-Retardant Treatments of Cotton-Polyester Blended Fabrics, p. 253

Borates, Permanence of
Permanence of Boron Containing Treatments For Cotton Batting Products that Meet the Mattress Flammability Standard FF 4-72, p. 65

Borates, Treatment Methods
Permanence of Boron Containing Treatments for Cotton Batting

Products that Meet the Mattress Flammability Standard FF 4-72, p. 65

Brominated Biphenol
A New Aromatic Brominated Flame Retardant and its Application in High Impact Polystyrene, p. 183

Brominated Polyester Resins
Resin Blending: The Key to Superior Properties of Fire Retardant Resins, p. 242

Carboxyethylated Cotton
Flammability Characteristics of Metal Cation Exchanged Carboxyethylated Cottons: Oxygen Index Values and Thermogravimetric Analysis, p. 94

Cellulose
Mechanistic Evaluation of Flame Retardants, p. 195

Chemical Structure
Hydrolysis Characteristics of Some Thpc-Based Flame Retardant Finishes on Cotton, p. 110

Coatings, Intumescent
The Use of Intumescent Coatings for Fire Protection of Structural Steel, p. 48

Cotton
A Durable Fire Retardant for Cotton-Polyester Blends, p, 102

Cotton
An Examination of Reactions Occurring During Finishing with Hydroxymethylphosphines, p. 161

Cotton
Dyes and Flame-Retardant Cotton Textiles, p. 83

Cotton
Flammability Characteristics of Metal Cation Exchanged Carboxyethylated Cottons: Oxygen Index Values and Thermogravimetric Analysis, p. 94

Cotton
Influence of Several Variables on the THPOH–NH_3 Fire Retardant Finish for Cotton, p. 121

Cotton
Observations on Some Flame-Retardant Treatments of Cotton-Polyester Blended Fabrics, p. 253

Cotton Batting
Permanence of Boron Containing Treatments for Cotton Batting Products that Meet the Mattress Flammability Standard FF 4-72, p. 65

Cotton Fabric
Influence of Several Variables on the THPOH-NH_3 Fire Retardant Finish for Cotton, p. 121

Cotton Fabrics
Effect of Laundry Detergents on Flame Retardant Cotton Fabrics, p. 151

Cotton Finishes
Hydrolysis Characteristics of Some Thpc-Based Flame Retardant Finishes on Cotton, p. 110

Cotton Flannelette
A Durable Flame Retardant for Cotton Cellulose Based on Diethyl Phosphoramidate (DEPA) and THPOH, p. 171

Cotton Textiles
A Durable Commercially Feasible Flame Retardant for Textiles, p. 21

Crosslink Density
Some Effects of Various Unsaturated Polyester Resin Components Upon FR-Agent Efficiency, p. 209

Cyanamide
Hydrolysis Characteristics of Some Thpc-Based Flame Retardant Finishes on Cotton, p. 110

Cyanide
A Durable Commercially Feasible Flame Retardant for Textiles, p. 21

DEPA (Diethyl Phosphoramidate)
A Durable Flame Retardant for Cotton Cellulose Based on Diethyl Phosphoramidate (DEPA) and THPOH, p. 171

Detergents
Effect of Laundry Detergents on Flame Retardant Cotton Fabrics, p. 151

Dibromoneopentyl Glycol
Resin Blending: The Key to Superior Properties of Fire Retardant Resins, p. 242

Dilution
Mechanism of Flame Inhibition II: A New Principle of Flame Suppression, p. 5

Durability
A Durable Commercially Feasible Flame Retardant for Textiles, p. 21

Durability
A Durable Fire Retardant for Cotton-Polyester Blends, p. 102

Dyes
Dyes and Flame-Retardant Cotton Textiles, p. 83

Fibers
Flame Retardant Polyester Fibers, p. 30

Finishes
Flame Retardant Polyester Fibers, p. 30

Fire Endurance Performance
The Use of Intumescent Coatings for Fire Protection of Structural Steel, p. 48

Fire Protection of Structural Steel
The Use of Intumescent Coatings for Fire Protection of Structural Steel, p. 48

Fire Retardant
Resin Blending: The Key to Superior Properties of Fire Retardant Resins, p. 242

Fire Retardants
Influence of Several Variables on the THPOH-NH_3 Fire Retardant Finish for Cotton, p. 121

Fire Test Analysis
The Use of Intumescent Coatings for Fire Protection of Structural Steel, p. 48

Flameproofing
Mechanistic Evaluation of Flame Retardants, p. 195

Flame Retardance
A Durable Flame Retardant for Cotton Cellulose Based on Diethyl Phosphoramidate (DEPA) and THPOH, p. 171

Flame Retardant
A Durable Commercially Feasible Flame Retardant for Textiles, p. 21

Flame Retardant
A Durable Fire Retardant for Cotton-Polyester Blends, p. 102

Flame Retardant
Dyes and Flame-Retardant Cotton Textiles, p. 83

Flame Retardant
Observations on Some Flame-Retardant Treatments of Cotton-Polyester Blended Fabrics, p. 253

Flame Retardant Finishing
Influence of Several Variables on the THPOH-NH_3 Fire Retardant Finish for Cotton, p. 121

Flame Retardant Polyester Fibers
Flame Retardant Polyester Fibers, p. 30

Flame Retardants
A New Aromatic Brominated Flame Retardant and its Application in High Impact Polystyrene, p. 183

Flame Retardants
Effect of Laundry Detergents on Flame Retardant Cotton Fabrics, p. 151

Flame Retardants
Mechanistic Evaluation of Flame Retardants, p. 195

Flame Suppression
Mechanism of Flame Inhibition II: A New Principle of Flame Suppression, p. 5

Flammability
Dyes and Flame-Retardant Cotton Textiles, p. 83

Flammability
Effect of Particle Size on the Performance of Alumina Hydrate in Glass-Reinforced Polyesters, p. 224

Flammability
Flammability Characteristics of Metal Cation Exchanged Carboxyethylated Cottons: Oxygen Index Values and Thermogravimetric Analysis, p. 94

Flammability Test
Effect of Laundry Detergents on Flame Retardant Cotton Fabrics, p. 151

Flammability Test
Some Effects of Various Unsaturated Polyester Resin Components Upon FR-Agent Efficiency, p. 209

Flammable Limits
Mechanism of Flame Inhibition II: A New Principle of Flame Suppression, p. 5

FR-Agent Efficiency
Some Effects of Various Unsaturated Polyester Resin Components Upon FR—Agent Efficiency, p. 209

Glass-Reinforced Polyesters
Effect of Particle Size on the Performance of Alumina Hydrate in Glass-Reinforced Polyesters, p. 224

Glycol
Some Effects of Various Unsaturated Polyester Resin Components Upon FR-Agent Efficiency, p. 209

Halogen Flame Retardants
Flame Retardant Polyester Fibers, p. 30

Halogen Loading
Some Effects of Various Unsaturated Polyester Resin Components Upon FR—Agent Efficiency, p. 209

Halogenated Reactive FR-Agents
Some Effects of Various Unsaturated Polyester Resin Components Upon FR-Agent Efficiency, p. 209

Heat Capacity
Mechanism of Flame Inhibition II: A New Principle of Flame Suppression, p. 5

High Impact Polystyrene
A New Aromatic Brominated Flame Retardant and its Application in High Impact Polystyrene, p. 183

Hot Ammonia Curing
Influence of Several Variables on the THPOH-NH_3 Fire Retardant Finish for Cotton p. 121

Hydrolysis
Hydrolysis Characteristics of Some Thpc-Based Flame Retardant Finishes on Cotton, p. 110

Hydroxymethylphosphines
An Examination of Reactions Occurring During Finishing with Hydroxymethylphosphines, p. 161

Inert Gases
Mechanism of Flame Inhibition II: A New Principle of Flame Suppression, p. 5

Inhibition
Mechanism of Flame Inhibition II: A New Principle of Flame Suppression, p. 5

Intumescent Mastics
The Use of Intumescent Coatings for Fire Protection of Structural Steel, p. 48

Isophthalic Acid Resins
Resin Blending: The Key to Superior Properties of Fire Retardant Resins, p. 242

Laundry Cycles
Effect of Laundry Detergents on Flame Retardant Cotton Fabrics, p. 151

Mattress Standard
Permanence of Boron Containing Treatments for Cotton Batting Products that Meet the Mattress Flammability Standard FF 4-72, p. 65

Mechanical Properties
A New Aromatic Brominated Flame Retardant and its Application in High Impact Polystyrene, p. 183

Mechanism
Mechanism of Flame Inhibition II: A New Principle of Flame Suppression, p. 5

Melamine
An Examination of Reactions Occurring During Finishing with Hydroxymethylphosphines, p. 161

Metal Cations
Flammability Characteristics of Metal Cation Exchanged Carboxyethylated Cottons: Oxygen Index Values and Thermogravimetric Analysis, p. 94

Na_2HPO_4
A Durable Commercially Feasible Flame Retardant for Textiles, p. 21

Nitrogen Flame Retardants
Flame Retardant Polyester Fibers, p. 30

Oxygen Index
A New Aromatic Brominated Flame Retardant and its Application in High Impact Polystyrene, p. 183

Oxygen Index
Dyes and Flame-Retardant Cotton Textiles, p. 83

Oxygen Index
Flammability Characteristics of Metal Cation Exchanged Carboxyethylated Cottons: Oxygen Index Values and Thermogravimetric Analysis, p. 94

Oxygen Index
Some Effects of Various Unsaturated Polyester Resin Components Upon FR-Agent Efficiency, p. 209

Oxygen Index, Limiting
Observations on Some Flame-Retardant Treatments of Cotton-Polyester Blended Fabrics, p. 253

Particle Size
Effect of Particle Size on the Performance of Alumina Hydrate in Glass-Reinforced Polyesters, p. 224

Phosphorus
A Durable Fire Retardant for Cotton-Polyester Blends, p. 102

Phosphorus Flame Retardants
Flame Retardant Polyester Fibers, p. 30

Physical Properties
Effect of Particle Size on the Performance of Alumina Hydrate in Glass-Reinforced Polyesters, p. 224

Physical Properties Blends
A Durable Fire Retardant for Cotton-Polyester Blends, p. 102

Pilot Plant
A Durable Flame Retardant for Cotton Cellulose Based on Diethyl Phosphoramidate (DEPA) and THPOH, p. 171

Polyester
A Durable Fire Retardant for Cotton-Polyester Blends, p. 102

Polyester
Observations on Some Flame-Retardant Treatments of Cotton-Polyester Blended Fabrics, p. 253

Polyesters
Smoke Inhibition of Polymers, p. 132

Polyester Fibers
Flame Retardant Polyester Fibers, p. 30

Polymers
Smoke Inhibition of Polymers, p. 132

Polyvinylbromide
A Durable Fire Retardant for Cotton-Polyester Blends, p. 102

Polyvinyl Chloride
Smoke Inhibition of Polymers, p. 132

Pyrolytic Reactions
Mechanistic Evaluation of Flame Retardants, p. 195

Pyrovatex CP
Effect of Laundry Detergents on Flame Retardant Cotton Fabrics, p. 151

Reaction Path
An Examination of Reactions Occurring During Finishing with Hydroxymethylphosphines, p. 161

Resin Blends
Resin Blending: The Key to Superior Properties of Fire Retardant Resins, p. 242

Resin Properties
Resin Blending: The Key to Superior Properties of Fire Retardant Resins, p. 242

Sateen
A Durable Flame Retardant for Cotton Cellulose Based on Biethyl Phosphoramidate (DEPA) and THPOH, p. 171

Smoke Generation
Smoke Inhibition of Polymers, p. 132

Smoke Suppressants
Smoke Inhibition of Polymers, p. 132

Smoke Tests
Smoke Inhibition of Polymers, p. 132

Storage Stability
Permanence of Boron Containing Treatments for Cotton Batting Products that Meet the Mattress Flammability Standard FF 4-72, p. 65

Strength Properties
A Durable Commercially Feasible Flame Retardant for Textiles, p. 21

Structural Steel
The Use of Intumescent Coatings for Fire Protection of Structural Steel, p. 48

Styrene Loading
Some Effects of Various Unsaturated Polyester Resin Components Upon FR-Agent Efficiency, p. 209

Styrene Polymers
Smoke Inhibition of Polymers, p. 132

2,2',6,6'-tetrabromo-3,3',5,5'-tetramethyl-4,4'-dihydroxy-biphenyl
A New Aromatic Brominated Flame Retardant and its Application in High Impact Polystyrene, p. 183

Textiles
Dyes and Flame-Retardant Cotton Textiles, p. 83

Thermal Conductivity
Mechanism of Flame Inhibition II: A New Principle of Flame Suppression, p. 5

Thermal Evolution Analysis
Mechanistic Evaluation of Flame Retardants, p. 195

Thermogravimetric Analysis
Flammability Characteristics of Metal Cation Exchanged Carboxyethylated Cottons: Oxygen Index Values and Thermogravimetric Analysis, p. 94

Thermogravimetric Data
Mechanistic Evaluation of Flame Retardants, p. 195

Thermostable Flame-Retardant Additives
Flame Retardant Polyester Fibers, p. 30

Thpc
A Durable Commercially Feasible Flame Retardant for Textiles, p. 21

Thpc
An Examination of Reactions Occurring During Finishing with Hydroxymethylphosphines, p. 161

Thpc-Based Flame Retardant
Hydrolysis Characteristics of Some Thpc-Based Flame Retardant Finishes on Cotton, p. 110

Thpc-Urea
Effect of Laundry Detergents on Flame Retardant Cotton Fabrics, p. 151

Thpc-Urea
Dyes and Flame-Retardant Cotton Textiles, p. 83

THPOH (Tetrakis Hydroxymethyl) Phosphonium Hydroxide
A Durable Flame Retardant for Cotton Cellulose Based on Diethyl Phosphoramidate (DEPA) and THPOH, p. 171

THPOH
An Examination of Reactions Occurring During Finishing with Hydroxymethylphosphines, p. 161

THPOH-Amide
Dyes and Flame-Retardant Cotton Textiles, p. 83

THPOH-Ammonia
Dyes and Flame-Retardant Cotton Textiles, p. 83

THPHO-NH_3
Effect of Laundry Detergents on Flame Retardant Cotton Fabrics, p. 151

THPOH-NH_3
Influence of Several Variables on the THPOH-NH_3 Fire Retardant Finish for Cotton, p. 121

THPOH-NH_3 Polymer
An Examination of Reactions Occurring During Finishing with Hydroxymethylphosphines, p. 161

Titanium Tetrachloride
Observations on Some Flame-Retardant Treatments of Cotton-Polyester Blended Fabrics, p 253

TMM (Trimethylolmelamine)
A Durable Flame Retardant for Cotton Cellulose Based on Diethyl Phosphoramidate (DEPA) and THPOH, p. 171

Toxicity
A New Aromatic Brominated Flame Retardant and its Application in High Impact Polystyrene, p. 183

Trimethylolmelamine
Hydrolysis Characteristics of Some Thpc-Based Flame Retardant Finishes on Cotton, p. 110

Trimethylolmethylglycoluril (TMMGU)
A Durable Commercially Feasible Flame Retardant for Textiles, p. 21

Tris(2,3-dibromopropyl) Phosphate
Observations on Some Flame-Retardant Treatments of Cotton-Polyester Blended Fabrics, p. 253

Unsaturated Polyester Resin Components
Some Effects of Various Unsaturated Polyester Resin Components Upon FR-Agent Efficiency, p. 209

Unsaturated Polyester Resins
Resin Blending: The Key to Superior Properties of Fire Retardant Resins, p. 242

Urea
A Durable Fire Retardant for Cotton-Polyester Blends, p. 102

Urea
An Examination of Reactions Occurring During Finishing with Hydroxymethylphosphines, p. 161

Urea
Hydrolysis Characteristics of Some Thpc-Based Flame Retardant Finishes on Cotton, p. 110

Urethanes
Smoke Inhibition of Polymers, p. 132

Weatherometer Test
The Use of Intumescent Coatings for Fire Protection of Structural Steel, p. 48
